

## BACKGROUND

### Background to the C&C group

SAFEGROUNDS and SD:SPUR are learning networks which drive good practice and are governed by major stakeholders. The next step is to form a new group to engage proactively with contractors and consultants – the C&C group.

Its aim is to support the commercial opportunities that can be developed through the adoption of good practice. It will therefore enable links to and from the networks, act as a mechanism for contacts and be a forum for sharing knowledge on technological and management approaches.

### Who should attend

Contractors and consultants who are involved or are interested in commercial contaminated land management or decommissioning work which supports either:

- MOD or
- NDA Tier 1 Contractors

The group is of interest to all parts of the nuclear and defence supply and project management chains.

There is no charge for attending this first event.

## WHY YOU SHOULD ATTEND

This inaugural event has been developed to explain what the group will do and how it will operate. It will demonstrate, through presentations and facilitated discussions, how participation will support your commercial development. Opportunities for positive publicity and shaping the group are amongst the benefits of attendance.

Speakers will be drawn from the SAFEGROUNDS and SD:SPUR communities, which include representatives from the UKAEA, British Nuclear Group, Magnox, British Energy, HSE, EA, NDA, MOD, Defence Estates, AWE, local authorities, NGOs and other organisations.

## SAFEGROUNDS Learning Network

A forum for developing and disseminating good practice guidance on the management of radioactively and chemically contaminated land on nuclear and defence sites in the UK

[www.safegrounds.com](http://www.safegrounds.com)

## SD:SPUR Learning Network

A network for developing and disseminating good practice guidance on the application of sustainable practices to the management of assets and radiologically clean and slightly radioactive decommissioning wastes arising from nuclear sites

[www.sdspur.com](http://www.sdspur.com)

CIRIA is a leading provider of performance improvement products and services in the construction and related industries.

[www.ciria.org](http://www.ciria.org)

SAFEGROUNDS, SD:SPUR and the C&C group are managed by CIRIA.

## Benefits of participation in the C&C group

### Forum Events

- Free participation in forum events to share views and direct messages through influencers
- Briefings on SAFEGROUNDS and SD:SPUR activities, and forward work programmes
- Presentations from key organisations on relevant issues
- Input into consultations aimed at developing good practice guidance

### Networking

- Free attendance at workshops and seminars on technical topics of interest to members
- Discounted rates for attending SAFEGROUNDS, SD:SPUR and CIRIA conferences
- Regular newsletters providing updates on members' issues

### Publicity

- Listing of your company, products and services on SAFEGROUNDS and SD:SPUR websites
- Opportunities to provide case study material highlighting your experience of good practice against SAFEGROUNDS and SD:SPUR principles

For further information on C&C group membership, please contact Jo Facer or Mark Bentley at CIRIA:
